# X1 Search

Search Emails, Files, Cloud Repositories and SharePoint in Seconds

X1 Search™ is an award-winning search and productivity application that provides users the fastest, easiest way to find and work with the exact information they need and thought they would never find again.

X1 Search simplifies the way business professionals search and act upon desktop files, items in cloud repositories such as OneDrive, emails, attachments, SharePoint and more. X1's single, unified interface and fast-as-you-type search with hit highlighting and full-fidelity preview of results provides immediate visibility into the critical information you need. More often than not, you may forget file names or whether a critical document is stored on a local drive, in SharePoint or on a Network File Share, but if you remember the email contents or keywords throughout the file, X1 can quickly and easily retrieve your result in just a few keystrokes.

Email	**Attachments**	**Microsoft SharePoint**
Documents	**Contacts**	**Calendar**
Archived Emails	**Cloud Files**	

X1 Search provides the flexibility necessary for today's remote and globalized workforce. Whether you're working on your office desktop or at home on a laptop, X1 Search will find and let you act on critical documents regardless of where you or your data reside.

Benefits

Enables Business Productivity
It is easy to find email, desktop files, items in cloud repositories, SharePoint and more in a single interface with hit highlighting and full-fidelity preview of results.

Comprehensive Email Search
Deep Outlook integration empowers professionals to search across, Outlook email, attachments, Outlook Calendars, and contacts lists.

Cloud & Hybrid Cloud Search
Search cloud repositories like Box and OneDrive alongside email, files, and SharePoint content, reaping the benefits of a single-pane-of-glass view for business content.

SharePoint Search
Seamlessly integrate SharePoint into your workflow with native preview of document libraries and lists as well as SharePoint specific post-search actions such as check-in and check-out.
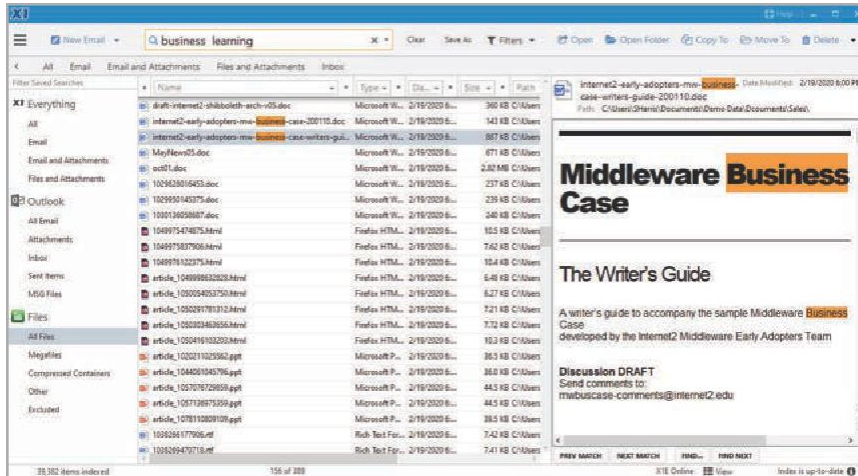

Federated Search
X1 unifies search results across desktops, network file shares, email, cloud repositories, removable disks and more, enabling you to preview and act upon information no matter where it lives.

User-centric Interface
A single, unified interface with fast-as-you-type search with hit-highlighting, 50+ refine columns, full fidelity preview of attachments and files, and a catalog of post-search actions retrieve and act upon results in the way a business professional recollects information.

X1 Search
