

X1 Search

Instantly Find Exactly What You're Looking For Across All Your Data Sources...with a Single Search

Stop Searching and Start Finding with X1 Search!

Do you spend valuable time individually searching through your Microsoft Outlook, OneDrive, SharePoint, Teams, Google Drive, Gmail, Slack, and more, unable to find what you are looking for? Trying to recall if it was in your personal Gmail, your work OneDrive, in a Teams chat, lost in your spam folder or archived in your email 5 years ago - it can be frustrating and nearly impossible to find anything. Stop searching and start finding...

With *X1 Search*, you can **instantly search and find the exact information you need** using a single command, across all your data sources, saving you up to 2 hours every day! No other solution enables you to immediately search across your emails, attachments, documents, local files, and M365 data, including Teams chats and channels, in a single search. This game-changing capability supercharges your productivity and enables you to immediately find exactly what you need.

Powered by our patented *fast-as-you-type* search capabilities, X1 Search enables you to **seamlessly search across all of your data sources** including:

- M365 data sources
- Google Drive, OneDrive, Box
- Gmail, Outlook Mail, Yahoo
- Teams Chats and Channels, Slack
- Archived mail and Local emails
- Cloud data sources, and more...

...All from within a single, simple, unified interface, saving hours of time every day. This easy-to-use desktop application streamlines user workflow for both business and personal use by rapidly searching years' worth of email, attachments, files and more, providing a consolidated view across all data sources, and producing **more accurate results 5x faster** than any search tool you may find on your desktop.

Key Benefits

Unified Search Across All of your Data Sources Producing 5x Faster Results

Instantly search across all of your data sources including M365, Teams Chats and Channels, OneDrive, SharePoint, email, files, cloud file shares, Google Drive, and more within a single, simple, unified interface.

Quickly Search All of your Chats and Channels with our Dedicated Microsoft Teams Connector

Easily search through your MS Teams Chat and Channel history with the X1 Search connector for Microsoft Teams - including attachments, emojis, reactions and more!

Elevate your Cloud Data Search Capabilities with our Google Drive Connector

Access your complete Google drive history with the new data source connector, including Post Search Actions to Open, Download, and Move/Copy any of your Google drive data.*

Gain Immediate Visibility into your Data with our Easy-to-Navigate User Interface

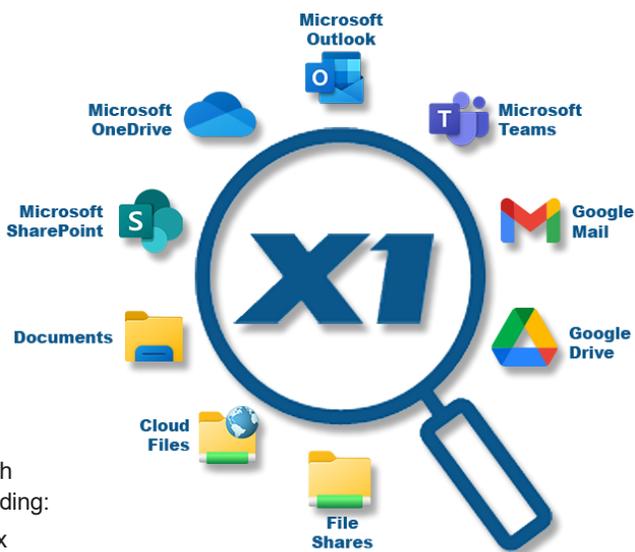

Take advantage of our easy to use interface featuring X1's fast-as-you-type search capabilities, hit-highlighting, indexing of over 50 metadata fields for precise filtering, full fidelity preview of attachments, files, chats and more with a catalog of post-search actions available within the solution enabling easy next steps.

Amplify your Gmail and Outlook Data Search with 3x Faster Results

Index, search and find information in your Gmail 3 times faster with our new API-based Gmail connector. Search across all of your Outlook email, attachments, Outlook calendar, and contacts list via X1's deep Outlook integration.

Accelerate your Email Workflow with M365 Archived Mail Search Capabilities

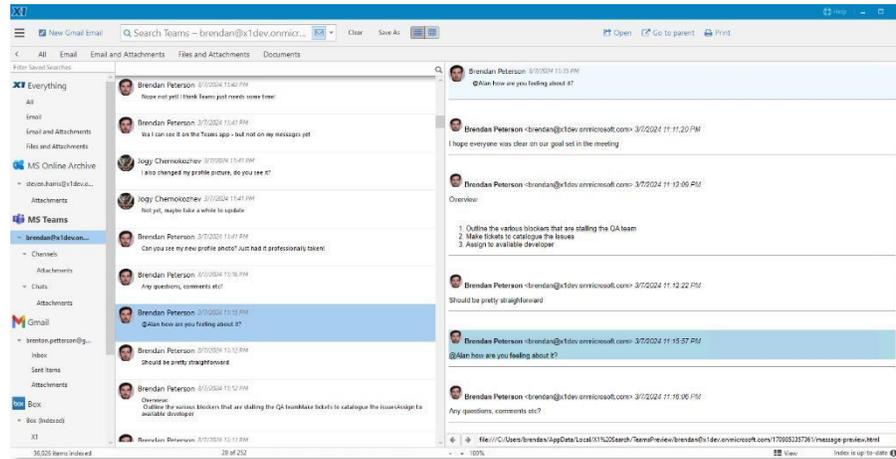

Rapidly index years' worth of archived Outlook email in half the time!
